California Natural Diversity Database

Information Services Unit – Price Sheet (12/2003)

The California Natural Diversity Database (CNDDDB) collects information on the location and condition of California's rare, endangered, threatened species and natural communities. The data is entered into a computerized data management and mapping system. This information is made available to interested parties, for a fee, in the form of computer generated text reports and map overlays. The entire inventory can be purchased for an annual subscription in the form of a PC database application called RareFind 3, along with GIS coverage. RareFind 3 provides flexible query options and text-based reports for any of California's 2,800+, 1:24,000-scale United States Geological Survey (USGS) 7.5 minute maps. RareFind 3 is used as a stand-alone research tool or can be linked with the geographical information system (GIS) application ArcView™ for access to the spatial data set. The documented location for a plant, animal, or community is the basic unit of record in this system.

CNDDDB Annual Subscription:

The initial subscription year and start-up rate is \$300. Subsequent renewal years are \$200. Should the subscription lapse 2 months or more from the established anniversary month (i.e., month of initial subscription), the subscription will commence again at the initial start-up rate of \$300.

Organizations can make as many copies of the data and application as necessary for their internal use but cannot make copies for distribution outside of their organization.

Standard Costs for CNDDDB Products:

1 Standard Vellum Map Overlay with Text Report/Quad (non-subscribers).....	\$ 30.00
1 Clear Media (Mylar) Overlay with Text Report/Quad (non-subscribers).....	\$ 40.00
CNDDDB Subscribers 1 Standard Overlay	\$ 20.00
CNDDDB Subscribers 1 Clear/Mylar Overlay	\$ 30.00
Additional Overlay Layers/Quad as needed	\$ 15.00
Duplicate Overlays with same order	\$ 15.00
Text Reports/Quad (non-subscribers)	\$ 25.00
1 Hour of Staff Time	\$ 25.00
Rush Orders ¹	\$ 50.00

A standard order takes approximately two weeks from processing to delivery. Requests will not include a separate charge for staff time unless a custom request is made. A customer request is any order other than one that includes all occurrences on a USGS 7.5' quad.

All CNDDDB requests are invoiced through the Department's Fiscal and Administration Services Branch. We will charge 50% of the total cost for cancellation of orders that we have taken, processed, but have not yet delivered. Orders that have been delivered cannot be returned, and no refund will be made.

For more information on CNDDDB products and services, please call our Information services Staff at (916) 324-3812, (916) 324-0475 (FAX), or e-mail us at whdab@dfg.ca.gov. You may also write us at:
